### 1.Login/Registration page

The image displays two side-by-side screenshots of a web application's login and registration pages. Both pages feature a 'Home' button at the top. The left screenshot shows the login page with a 'Login | Register' header, a prompt to 'Enter your username and password to login.', and input fields for 'Email' and 'Password'. A blue 'Login' button is positioned below the fields. Below the login section, there is a link 'Or login with' followed by two buttons: 'Continue with Google' and 'Continue with Facebook'. The right screenshot shows the registration page with a 'Login | Register' header, a prompt to 'Enter your email and password to register.', and input fields for 'Email', 'Code', 'Name', 'Surname', 'Password', and 'Confirm Password'. A blue 'Register' button is positioned below the fields. Below the registration section, there is a link 'Or register with' followed by two buttons: 'Continue with Google' and 'Continue with Facebook'.

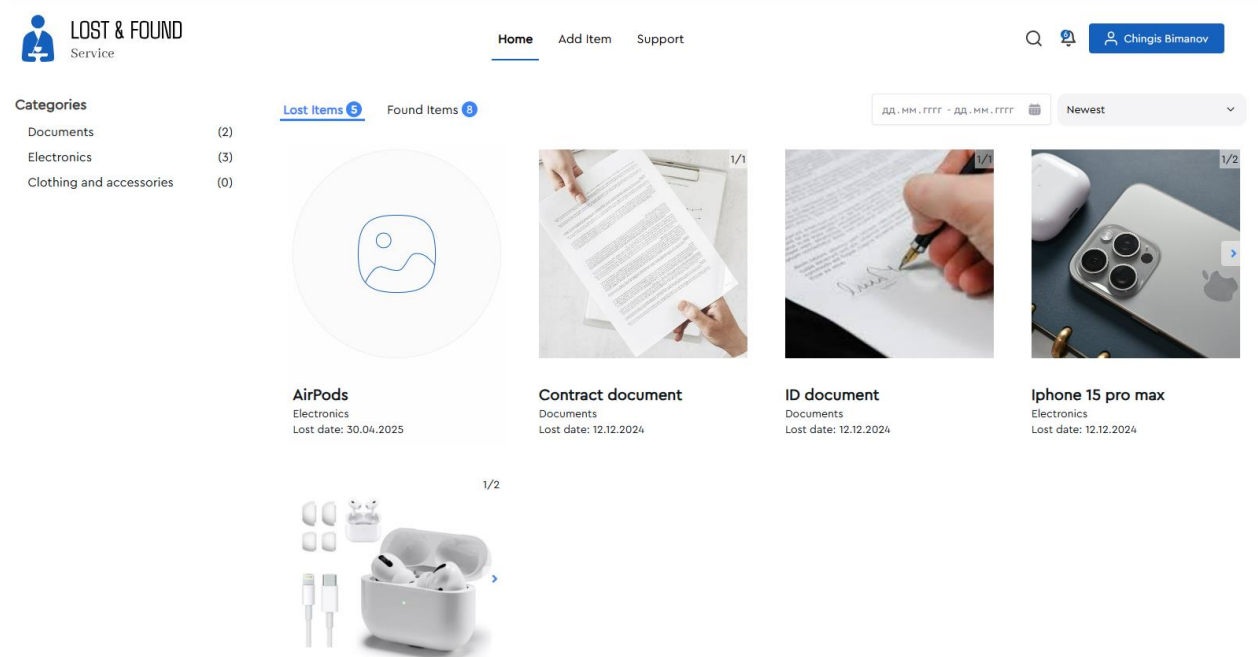

#### Registration Page:

- **Email Field:** Allows the user to input their email address for registration.
- **Send Code Button:** Sends a verification code to the provided email address.
- **Code Field:** Input field to enter the verification code received via email.
- **Name Field:** Required field to enter the user's first name.
- **Surname Field:** Required field to enter the user's last name.
- **Password Field:** Secure input field to set a password for the account.
- **Confirm Password Field:** Input field to confirm the entered password for accuracy.
- **Register Button:** Submits the registration form and creates a new account with the provided details.

## Login Page

- **Email Field:** Allows the user to input their registered email address to log into their account.
- **Password Field:** Secure input field to enter the password for the account.
- **Login Button:** Submits the login credentials and grants access to the user's account.

## 2.Main Page

The main page of the "Lost & Found" service provides a simple and organized interface with the following functionality:

### 1. Navigation Menu:

- **Categories:** A sidebar on the left categorizes the lost and found items into "Documents," "Electronics," and "Clothing and Accessories." Each category has a number in parentheses to indicate how many items belong to that category.

### 2. Main View:

- **Lost Items/Found Items Tabs:** The page is divided into two main sections: "Lost Items" (items reported as lost) and "Found Items" (items found by others). You can toggle between these two to view relevant items. A count shows how many items are listed in each category.

### 3. Search and Filter:

- **Search Bar:** On the top-right, users can search for specific items.
- **Dropdown Menu:** A filter for sorting items by "Newest" or other sorting criteria is available next to the search bar.

### 4. Item Listings:

- Each item is displayed with a thumbnail image and a brief description, including the item name, category, and the date it was lost. For example:
  - AirPods (Electronics) – Lost on 30.04.2025
  - Contract document (Documents) – Lost on 12.12.2024
  - ID document (Documents) – Lost on 12.12.2024
  - iPhone 15 Pro Max (Electronics) – Lost on 12.12.2024
- Some items have multiple images shown (as seen with the AirPods and iPhone).

### 5. User Account and Support:

- On the top-right, there is an icon for the user's profile, with the name "Chingis Bimanov," indicating that the user is logged in.
- There's also an option to access support.

### 6. Navigation Options:

- **Add Item:** A button or option to add a new item (lost or found) is visible.
- **Home:** Clicking the "Home" tab returns you to the main page.

This layout ensures a clear and user-friendly experience for searching, reporting, and sorting lost and found items.

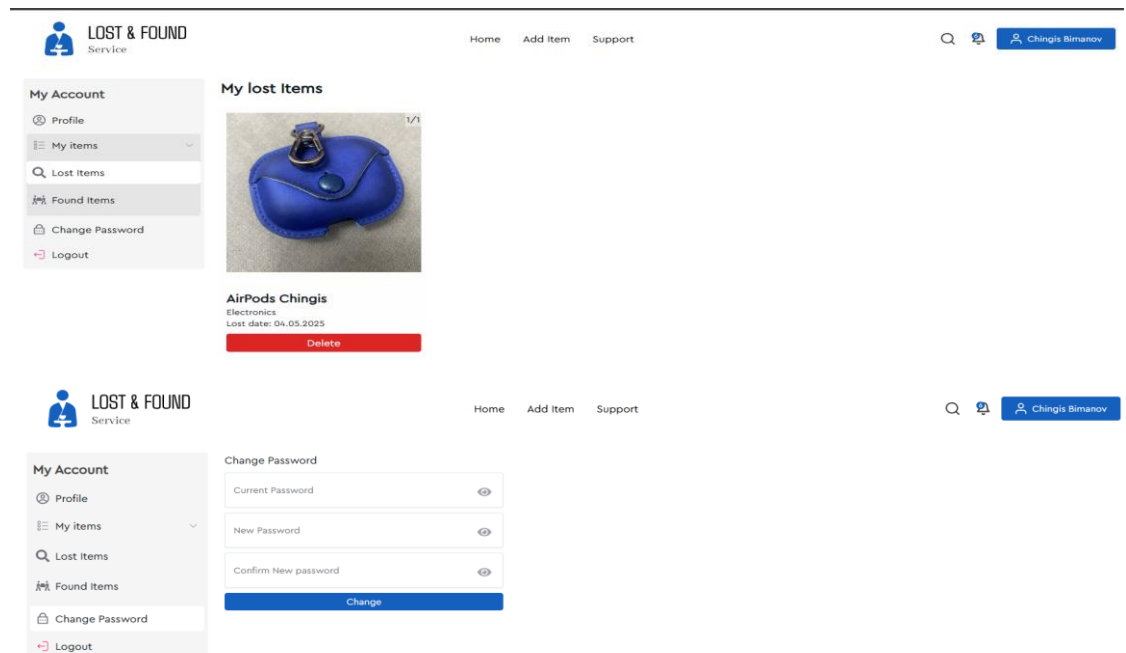

## 3.Profile

The screenshot displays the user profile interface for the 'LOST & FOUND Service'. At the top, there is a navigation bar with links for 'Home', 'Add Item', and 'Support'. On the right side of the header, there is a search icon, a notification bell, and a user profile button labeled 'Chingis Bimanov'. The main content area is divided into two sections. On the left, a sidebar titled 'My Account' contains a list of options: 'Profile' (selected), 'My items', 'Lost Items', 'Found Items', 'Change Password', and 'Logout'. The right section, titled 'Personal Information', contains four input fields: 'Name\*' with the value 'Chingis', 'Surname\*' with the value 'Bimanov', 'Phone number', and 'Telegram'. A blue 'Change Info' button is located at the bottom right of the form.

Description of the main functionalities available on this page:

## 1. Navigation Menu:

- My Account: Located on the left sidebar, this includes options to navigate to your profile, manage your items (both lost and found), and change your password.

- Logout: A button to log out of the service.

## 2. Personal Information Section:

- Name: The user's first name ("Chingis") is displayed, with an editable field if they wish to update it.
- Surname: The user's last name ("Bimanov") is also displayed, and can be edited.
- Phone Number: An editable field to update the phone number associated with the account.
- Telegram: An optional field to include the user's Telegram username.

## 3. Change Info Button:

- After updating any personal information, users can click the "Change Info" button to save the changes.

## 4. Top-right Controls:

- Home, Add Item, and Support: As with the main page, these options are available at the top for easy navigation.

This page serves as a space for the user to manage their account details, keeping them up-to-date with contact information and preferences.

## 4. Add Item

LOST & FOUND Service

Home Add Item Support

Add Item

### 1. Item Details Section:

- Item Name: A required text field where users can enter the name of the item they are reporting (e.g., "AirPods").
- Description: An optional text box for users to provide additional details about the item (e.g., its condition, unique features, or other distinguishing characteristics).

### 2. Category Selection:

- Users can select the category of the item from the available options:
  - Documents
  - Clothing and accessories
  - Electronics

### 3. Item Type:

- Lost Item: Users can select this option if they are reporting something that was lost.
- Found Item: Users can select this option if they have found an item.

#### **4. Date Field:**

- A date picker is available to specify the found/lost date (for example, "04.05.2025").

#### **5. Upload Images:**

- Users can upload images of the item to provide visual information. There's a button labeled "Choose Files" (or "Выбрать файлы" in Russian) that allows the user to browse and select images from their device.

#### **6. Add Item Button:**

- Once the necessary information is entered, users can click the "Add Item" button to submit their item to the service.

This page is designed to allow users to report lost or found items by providing details, uploading images, and specifying item categories.
